Use-Case Specification: User Registration

1. User Registration

1.1 Brief Description

The Use Case “User Registration” is specifically for guests. Guests will be able to create accounts for using the provided services of Photress.

Photress	Version: <1.1>
Use-Case Specification: User Registration	Date: 31.10.2013

2. Flow of Events

You will find the latest version of the activity diagram under the following link:

<http://photress.it.dh-karlsruhe.de/?p=46>

3. Special Requirements

N.a.

4. Preconditions

The user has to have a valid e-mail-address to activate his account. This address must not be linked to an already registered or a non-active account.

5. Postconditions

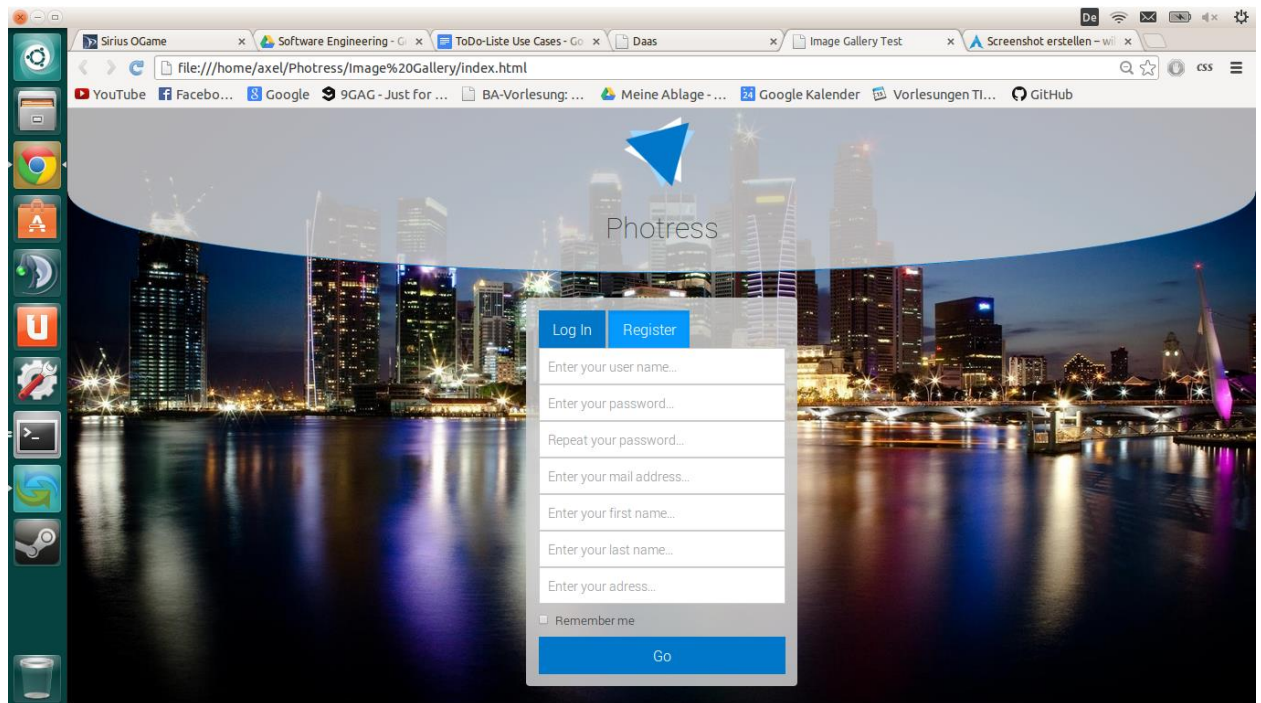

A new account has been registered and an activation mail has been sent out to the given e-mail-address. The status of this account is set to non-active.

6. Extension Points

N.a.

Photress	Version: <1.1>
Use-Case Specification: User Registration	Date: 31.10.2013

7. Mockup

Photress	Version: <1.1>
Use-Case Specification: User Registration	Date: 31.10.2013

8. Narration

Feature: user registration on Photress

As an unregistered user

I want to register myself

So I can use the awesome services of Photress

Scenario: register myself correctly

Given I am on the login/register page

And I click on register

And I enter "Adracus" as user name

And I enter "test123" as password

And I enter "test123" as repeated password

And I enter "adracus@gmail" as mail address

And I enter "Axel" as first name

And I enter "Christ" as last name

And I enter "Germany, Karlsruhe" as address

And I press "Go"

Then I should be redirected to the login-success page

And I should see "A verification mail to your account has been sent"

Scenario: register myself incorrectly

Given I am on the login/register page

And I click on register

And I enter "Adracus" as user name

And I press "Go"

Then I should stay on the login/register page

And I should see the missing fields highlighted as missing
