Use-Case Specification: Upload Photographies

Upload Photographies

1. Upload Photographies

1.1 Brief Description

The Use Case “Upload Photographies” is accessible for the actors “admin of own gallery” and “admin of hosted gallery”. The actor will be able to upload his photographs into the image pool of his account in order to make them accessible for his galleries.

2. Flow of Events

You will find the latest version of the activity diagram under the following link:

<http://photress.it.dh-karlsruhe.de/?p=46>

3. Special Requirements

N.a.

4. Preconditions

The actor has to have an activated account and enough space for uploading the photographs into his image pool.

5. Postconditions

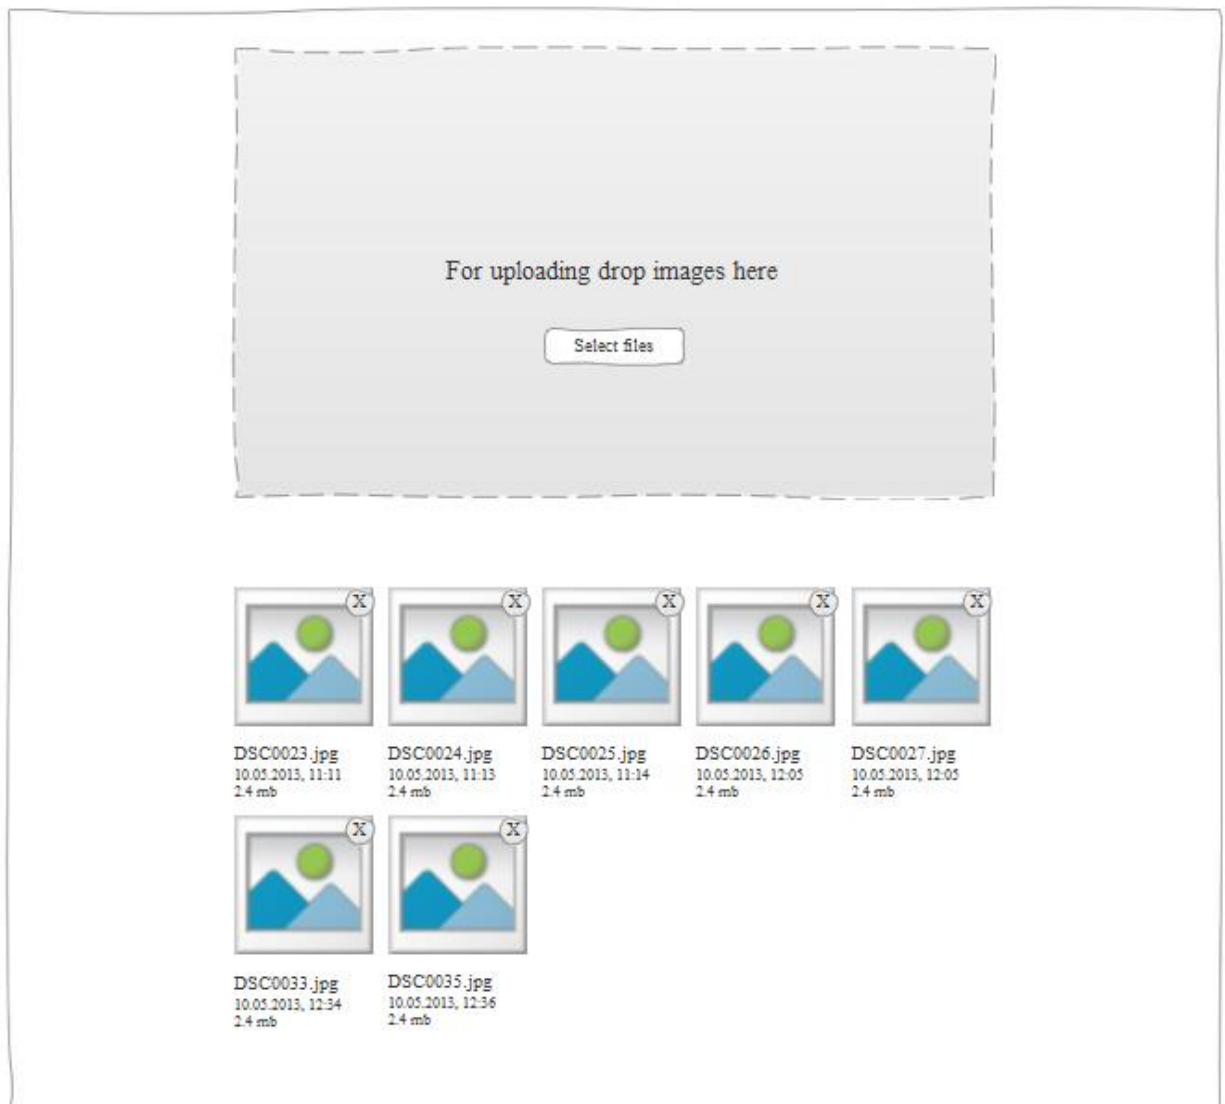

The image pool of the actor contains the newly uploaded photographs.

6. Extension Points

N.a.

7. Mockup

Photress	Version: <1.1>
Use-Case Specification: Upload Photographies	Date: 31.10.2013

8. Narration

Feature: upload photographs to my own account

As an registered user

I want to upload my photographs to my account

So I can view and share them later.

Scenario: upload a single photo "awesome_picture.png"

Given I am logged in

And I am a valid user

And I am on the "Upload images on my account"-page

When I click on the select image button

And I select the image "awesome_picture.png" on my storage

And I click ok

And I click upload

And the upload is finished

Then I should see a message which says "Successfully uploaded your picture awesome_picture to your account"

And the picture should have the filename

Scenario: upload multiple photos "awesome.png", "cool.jpg", "test.gif"

Given I am logged in

And I am a valid user

And I am on the "Upload images on my account"-page

When I click on the select image button

And I select multiple images on a storage

And I click ok

And I click upload

And the upload is finished

Then I should see a message which says "Successfully uploaded your pictures awesome, cool and test."

Scenario: upload multiple photos "awesome.png", "cool.jpg" and one invalid file "virus.exe"

Given I am logged in

And I am a valid user

And I am on the "Upload images on my account"-page

When I click on the select image button

And I select the images "awesome.png" and "cool.jpg" and the invalid file "virus.exe"

And I click ok

And I don't specify multiple image names

And I click upload

And the upload is finished

Then I should see a message which says "Successfully uploaded your pictures awesome and cool."

And I should see a message which says "But there was a problem with 'virus.exe' - It's an invalid file."
